## Summary

An experienced software engineer with over 4 years of professional software development experience. Skilled with the use of industry best practices and agile methodology in developing robust software product and overseeing a product through it's software development life cycle.

Skilled in web application development, database development/management, cloud computing, and different programming languages and frameworks.

Rated as motivated, energetic and hardworking as well as being able to work independently (or with a team) with an outstanding output. I also have a Bachelor of Engineering degree in Electronic Engineering from the University of Nigeria, Nsukka.

## Accomplishments

- Developed an online mentoring platform ([www.bytementor.com](http://www.bytementor.com)), to guide and mentor young software developers.
- Developed & deployed an offline Computer Based Test solution for tertiary institutions, ensuring excellent exam experience for students.
- Supervised the development and deployment of school portal solutions for tertiary institutions, maximizing productivity while reducing the cost of development.
- Designed and deployed an offline based transcript management system for a tertiary institution.
- Designed an SMS platform for sending bulk messages to students.

## Work Experience

### Senior .Net Backend Developer

June 2019 - Present

#### Suregroup

##### Responsibilities:

- Collaborating with team members to develop new solutions/software products.
- Maintaining existing solutions.

##### Projects worked on:

- Suregifts Business solution.
- Suregifts Web solution.
- Suregifts BackOffice solution.

### Software Development Team Lead

Nov. 2017 - May 2019

#### Lloydant Business Services

##### Responsibilities:

- Design and model new systems/solutions.
- Maintain existing source code and support existing solutions.
- Organise and collate works from other developers, test and deploy to server.
- Ensure best practices are used by developers.
- Oversees deployment of new solutions.

##### Projects worked on:

- School Portal solutions for tertiary institutions.
- Result Transcript Solutions for tertiary institutions.
- CBT Solution for tertiary institutions.
- EasyShop (E-Commerce application).
- Hotel Reservation solution.
- Hospital Billing System Solution.

##### Contributions:

- I lead a team of software engineers to develop and deploy a CBT solution for different tertiary institutions, ensuring excellent user experience for students.
- Supervised the development and deployment of school portal solutions for different tertiary institutions, maximizing productivity while reducing the cost of development.
- I mentored young developers and interns, guiding them in the use of best practices.

### Remote Software Developer

July 2018 - Present

#### Ugarsoft Limited

##### Responsibilities:

- Collaborating with team members to develop new solutions/software products.

##### Projects worked on:

- Bit Exchange Matching Engine.
- OmaCabs

## Core Competencies

- Software Development.
- Database Development.
- Solutions Deployment.
- Problem Solving.
- Efficient communication skills.
- Ability to learn fast and express ideas.
- Team Work, Building and Leadership.
- Debugging & Troubleshooting.
- Creative thinking.

## Technical Summary

### Programming

- C#.
- Asp.Net MVC, Asp.Net Core.
- Asp.Net WebApi, SignalR.
- Web Services.
- HTML, CSS, Bootstrap.
- JavaScript, JQuery, React, Redux.
- Nodejs, Express.
- Golang.
- Unit Testing (XUnit Test Framework, Jest).

### Database Management/Data Persistence Techniques

- MSSQL.
- MySQL.
- Ado.Net.
- Entity Framework.
- MongoDb.
- Mongoose.

### Development Tools

- Microsoft Visual studio.
- Microsoft Visual Code.
- Microsoft SQL Management studio.
- MySQL Workbench.
- Sublime Text.
- Robo 3T.

### Others

- Windows Server Configuration and Hosting (VPS, Shared hosting).
- Version Control Techniques (Git, BitBucket).
- Microsoft packages (Word, Excel, PowerPoint).

**Contributions:**

- Collaborated with team members to build OmaCabs (a shuttle service in the South Eastern part of Nigeria).

**Software Developer**

Sept. 2015 - Oct. 2017

**Lloydant Business Services****Responsibilities:**

- Supporting and maintaining existing software solutions.
- Translate requirements into test conditions and expected results for products and user acceptance testing.
- Review prototypes to ensure that the business requirements are met.

**Projects Worked on:**

- Enugu State Scholarship application portal ([enuguscholarship.org](http://enuguscholarship.org)).
- Bulk SMS application.
- School Portal solutions for tertiary institutions.

**Contributions:**

- Implemented different new features based on clients requirements.
- Developed an SMS platform for the company which is used in reaching out to student of the different institutions managed by the company.

**Internship**

June 2014 - Nov. 2014

**Scientific Equipment Development Institute, SEDI-Enugu****Skills Acquired:**

- ICT Training(IT/Software).
- Repair and Maintenance of Electrical/Electronic Equipment.
- Design and Construction of Electrical and Electronic circuit.

**Contributions:**

- I worked together with a team to build a Scrollable Message Display for the IT department of the company using PIC microcontroller and assembly language.

**Volunteer Experience****Corps Member**

June 2016 - May 2017

**National Youth Service Corps**

- I served in the Electrical Department of the Ministry of Public Utilities & Water Resources, Abia State, Nigeria.
- I also engaged in other community development services.

**Educational Qualification****Bachelor of Engineering in Electronic Engineering.**

Sept. 2010 - August 2015

**University of Nigeria, Nsukka**

Second Class honours (Upper Division), 4.20 CGPA on a scale of 5.0.

**West African Senior School Certificate.**

Sept. 2004 - July 2010

**Saint Teresa's College, Nsukka.****Training & Certifications****Microsoft Technology Associate: Software Development Fundamentals**

July 2018

**Microsoft****Reference**
